

NRS Case Management Services: For Catastrophic and Serious Non-CAT Injuries

Nothing prepares you for being seriously injured in a car accident and having to relearn or find new ways to do everyday things – like managing your self-care and household chores, getting around, communicating effectively and successfully returning to caregiving, work, academic and leisure activities.

Our qualified Adult and Pediatric Case Managers/Case Coordinators are here to help – through every stage of your recovery.

How is Case Management different in the case of CATASTROPHIC versus SERIOUS NON-CAT injuries?

If your injuries have been deemed CATASTROPHIC:

- You are eligible for up to \$1,000,000 in med/rehab and attendant care funds, and access to a Case Manager to coordinate your rehab program.

If your injuries are serious but not deemed CATASTROPHIC:

- You are eligible for up to \$65,000 in med/rehab and attendant care funds, and you are NOT eligible for Case Management Services.
- However, at NRS, we will assign a therapist to be your Case Coordinator.
- Most insurers will approve this, recognizing how vital this is to your recovery and the cost effectiveness of this model.

How can a Case Manager/Case Coordinator help?

Your Case Manager/Case Coordinator will:

- Develop a comprehensive medical, rehab and support plan (this will be in the form of a Discharge Plan if you are still in hospital)
- Help you choose your treatment team.
- Ensure effective communication between you, your family and all the individuals who are supporting you in your recovery – including therapists, doctors, teachers, employers, lawyers and funding sources.
- Monitor your progress and address new needs as they arise.
- Help you navigate the complex medical/legal system.

NRS has been providing home, work, school and clinic based rehabilitation services to adults and children with brain injuries, spinal cord injuries, orthopaedic injuries, burns, amputations, psychological/psychiatric disorders and other complex injuries for over 30 years. We have helped thousands of people to successfully rebuild their lives.
